PROFILE

As a detail-oriented Project Business Analyst with over 4 years of experience, I specialize in translating business needs into actionable technical solutions. Beyond my core expertise, I'm passionate about web design and front-end development. Currently, I'm enhancing my skills in HTML, CSS, and JavaScript to blend creativity with technology.

WORK EXPERIENCE

Plaut Slovensko s.r.o.

JUL 2020 - PRESENT

Business analyst and Project manager

- Collaborated with stakeholders to analyze business needs, document requirements, and design solutions that aligned with project goals.
- Created and maintained detailed documentation, including UML diagrams, process flows, and functional specifications.
- Bridged the gap between technical teams and business stakeholders, facilitating clear communication and smooth project execution.
- Provided continuous support for system implementations, process optimizations, and issue resolution.

Inezis s.r.o.

Apr 2019 - Jun 2020

Junior Business analyst

- Collaborated with stakeholders to analyze business needs, document requirements, and design solutions that aligned with project goals.
- Created and maintained detailed documentation, including UML diagrams, process flows, and functional specifications.
